Study programme "Urban and Regional Engineering Economics"

Main attributes

Title	Urban and Regional Engineering Economics
Identification code	IGY0
Education classification code	47310
Level and type	Professional Master Study
Higher education study field	Economics
Head of the study field	Maija Šenfelde
Department responsible	Faculty of Engineering Economics and Management
Head of the study programme	Maija Šenfelde
Professional classification code	
The type of study programme	Full time, Extramural
Language	Latvian
Accreditation	25.08.2016 - 31.12.2020; Accreditation certificate No 23
Variant 1	
Volume (credit points)	60.0
Duration of studies (years)	Full time studies - 1,5; Extramural - 2,0
Degree or/and qualification to be obtained	Professional Master Degree in Economics
Qualification level to be obtained	The 7th level of European Qualifications Framework (EQF) and Latvian Qualifications Framework (LQF)
Programme prerequisites	Professional Bachelor Degree and/or Qualification in Economics, Management and Administration, Accounting and Taxation, Financial Engineering sectors, or comparable education
Variant 2	
Volume (credit points)	60.0
Duration of studies (years)	Full time studies - 1,5; Extramural - 2,0
Degree or/and qualification to be obtained	Professional Master Degree in Economics
Qualification level to be obtained	The 7th level of European Qualifications Framework (EQF) and Latvian Qualifications Framework (LQF)
Programme prerequisites	Professional Bachelor Degree and/or Qualification in Architecture and Urban Planning, Civil Engineering sectors, or comparable education
Variant 3	
Volume (credit points)	80.0
Duration of studies (years)	Full time studies - 2,0; Part time studies - 2,5; Extramural - 2,5
Degree or/and qualification to be obtained	Professional Master Degree in Economics and Qualification of Economist
Qualification level to be obtained	The 7th level of European Qualifications Framework (EQF) and Latvian Qualifications Framework (LQF); the 5th level of Latvian Professional Qualifications
Programme prerequisites	Bachelor Degree in Economics, Management Science, Natural Sciences or Civil Engineering sectors

Description

Abstract	<p>The study programme envisages the training of specialists for the planning and governance of the territorial economic development. Consequently, they have to comprehend ongoing processes in the field of regional and urban economic and development. The programme includes study courses in the field of economics, finances and engineering accordingly to the specialization in Regional or Urban economics</p> <p>compulsory theoretical courses in the field of economics: microeconomic and macroeconomic analysis and economic analysis methods. The courses of limited choice are chosen according to the students' direction of specialization: Regional Economy and Urban Economics.</p>
Aim	To provide students with the master's level knowledge in the field of regional and urban development; to train socially responsible and highly qualified specialists, whose knowledge in economic and engineering, skills and competencies will allow them to make engineering and technical well-founded economic decisions, to plan and coordinate the processes of territorial economic development and governance as well as conduct scientific research.

Tasks	<p>The tasks of the study programme are the following:</p> <ol style="list-style-type: none"> 1. to enable students to obtain the professional master's degree in economics; 2. to organize the study process with the aim to develop students' knowledge and skills, to promote their use in the study process and in further practical work; 3. to foster students' analytical skills, to promote acquisition and development of scientific research skills; 4. to create the necessary preconditions for training competitive specialists for the Latvian and international labour market; 5. to develop students' abilities in the systematic application of knowledge and skills necessary to address complex economic problems about micro- and macroeconomics, regional and urban economics; 6. to develop students' skills to formulate aims and objectives, to take socially and ethically responsible decisions related to the ongoing economic processes in the world; 7. to provide students with an opportunity to continue their education at the doctoral programmes after receiving the master's degree.
Learning outcomes	<p>Upon successful completion of the programme the graduates are able:</p> <ol style="list-style-type: none"> 1. to understand the organizational principles of urban development planning and regional development assessment criteria and methods; 2. to understand the issues of economic development and national economic policy; 3. to carry out economic calculations/feasibility studies related to sustainable development of towns and regions; 4. to understand the factors of economic development regionally, as well as identify and eliminate potential risks; 5. to understand the planning and maintenance of engineering infrastructure in urban and rural areas, as well as traffic flow planning principles; 6. to assess the impact of social and political processes on urban and regional development; 7. to plan, build and evaluate the budgetary process at a local and regional level; 8. to implement "green economy" policies for sustainable development of regions and towns; 9. to carry out scientific research in the field of territorial development and to justify the advantages or disadvantages of particular decisions; 10. to formulate aims and objectives and to take socially and ethically responsible decisions related to the territorial development; 11. to work out and implement national and international projects; 12. to creatively interact with clients, merchants, professionals and other parties and to work in interdisciplinary teams.
Final/state examination procedure, assessment	<p>The elaboration and defence of the master thesis is the final stage before receiving the Master's Degree. The tasks of the master thesis are the following:</p> <ul style="list-style-type: none"> -to train students to analyse topical problems and independently select research methods and scientific literature appropriate for the elaboration of the master thesis; -to enable students to formulate the research question and solve problems within the framework of research, -to train students to elaborate practical solutions in the form of recommendations and proposals; -to develop and enhance students' independent scientific research skills and capabilities to defend their scientific and practical results obtained in the research. <p>Master thesis is defended at an open meeting of the State Examination Commission, which is appointed by the Rector of RTU and is composed of no less than 51% of employers' representatives. Before the defence, master theses are evaluated by reviewers appointed by the Dean of the Faculty of Engineering Economics and Management.</p>
Description of the future employment	<p>Professional master study programme provides knowledge, which forms a certain degree of intelligence and culture, in order to successfully carry out socially necessary work and cooperate with Latvian and foreign counterparts.</p>
Special enrollment requirements	
Opportunity to continue studies	<p>Doctoral studies</p>

Courses

No	Code	Name	C.p. [1]	C.p. [2]	C.p. [3]
A		Compulsory study courses	9.0	9.0	12.0
1	IET506	Macroeconomic Analysis	3.0	3.0	3.0
2	IET504	Microeconomic Analysis	3.0	3.0	3.0
3	IEU509	Methods of Economic Analysis	3.0	3.0	3.0
4	IDA700	Basics of Labour Protection			1.0
5	IRE715	Elaboration of the Regional Socio-economic Development Programme (study project)			2.0
B		Compulsory elective study courses	25.0	25.0	22.0
B1		Field-specific study course	25.0	25.0	22.0
1	IBO440	Socio-economic Analysis, Planning and Organization of Regional Development	4.0		4.0
2	IBO444	Regional Finance	3.0		3.0
3	IET522	International Competition	2.0		2.0
4	IRE408	Regional Aspects of Business	3.0		3.0
5	IRE304	Management of Municipalities	2.0		2.0
6	AAP706	Sustainable Development of Spatial Environment	2.0		2.0
7	IRE404	Current Trends of the European Union Economic Policy	2.0	2.0	2.0
8	IRE707	Urban Economics and Social Environment	4.0	4.0	4.0
9	IRE718	Regional Management	5.0	5.0	5.0
10	EAS713	Territory planning and system thinking	5.0	5.0	5.0
11	IRE401	Regional Infrastructure	3.0	3.0	3.0
12	EAS738	Sustainable Development of Energy Supply	3.0	3.0	3.0
13	IRE303	Model of Functioning of the Economic System (business game)	2.0	2.0	2.0
14	IRE307	EU Co-financed Project Management		2.0	2.0
15	IUV456	Accounting and Finances		2.0	2.0
16	AAR704	Architectural Sociology	2.0	2.0	2.0
17	IRE715	Elaboration of the Regional Socio-economic Development Programme (study project)	2.0	2.0	
18	IRE708	Urban Socio-economic Development Planning (study project)	2.0	2.0	
D		Practical Placement	6.0	6.0	26.0
1	ITA703	Practical Placement	6.0	6.0	
2	IRE010	Practical Placement			26.0
E		Final examination	20.0	20.0	20.0
1	IUE002	Master Thesis	20.0	20.0	20.0
2	IRE002	Master Thesis	20.0	20.0	20.0
